

# Summer Spark Internship 2026

Summer Spark gives rising 9th graders and current high school students interested in STEM education the opportunity to actively participate in real-world job experiences as classroom interns during summer camps.

## What You'll Gain

Useful experience while assisting with daily experiments and activities.

Current Spark Interns will share their experiences and support you throughout the program.

One-on-one guidance with a dedicated Discovery Space educator.

Earn volunteer hours that can contribute to your school or club requirements.

Enhance your college applications, making you stand out as a motivated and proactive student.

Favorable position for the full year Spark Internship Program and potential future paid positions.

## Internship Requirements

- ✓ Sign up for and complete 1-2 4-hour (½ day) volunteer shifts per week of the summer (June 15-August 21).\*
- ✓ Participate in summer camp intern training (week of June 9th)
- ✓ Set goals with Spark lead and Spark intern mentor for summer skills you would like to gain.
- ✓ Check in with Spark lead and mentor once a month about goals progress.
- ✓ Keep track of volunteer hours throughout the summer.

\*Spark interns and Summer Spark interns may coordinate weeks off with the Spark Lead during scheduling.
